BUILDING UP SINCE 1968

Who we build is just as important as *what* we build.

Completing more than 8,700 projects, totaling \$29.7 billion, DPR Construction was founded in 1990 from the desire to be something different in the industry: An organization that exists to build great things—great teams, great projects, great relationships and lasting friendships. A place that provides people with opportunities to learn, grow and be better builders. An organization that cares deeply about changing the world and our surrounding communities.

www.cppi.com | (888) 435-CPPI

We're passionate about the work we do because the structures we build provide opportunities to learn, train, heal, grow, and lead. Construction is the heart of America – a country known for buildings that energize and inspire. It's a privilege to be a part of it.

To work in an industry whose veins run deep through the streets of our cities and hometowns.

To turn brick and mortar into shelter and safety.

To build something greater than ourselves.

GL HOMES COMMITMENT TO EXCELLENCE

GLHOMES

QUALITY FROM START TO FINISH

Since 1976, GL Homes has grown from a small, local builder to one of the nation's largest. For four decades, GL Homes has created exceptional communities and built quality residences in Florida's most desirable locations. There are more than 63,000 people living in GL homes throughout Florida. Many have moved-up to their second, even their third, GL home. GL Homes' success is in the details. Many of the features that add value to a GL home and a GL community are not visible at first glance. Land purchases are strategically made. Master plans are crafted to balance the use of open space, lakes and recreation areas. Communities are carefully planned to be both beautiful and functional. Floorplans are scrutinized for a maximum use of space and functionality. Top quality materials are introduced at every step in the process. As you walk through our incredibly decorated model homes, you can see the difference in quality and excellence.

HGR Construction, Inc. was founded in 2003 and is based in Altamonte Springs, Florida with a branch office in Charlotte, North Carolina. Our Principals have a combined experience of over 100 years in the construction industry and believe the key to HGR's success is building relationships on foundations of trust.

HGR provides commercial construction services in the entire Southeast United States including Florida, Georgia, North and South Carolina, Tennessee, Virginia, Mississippi, Louisiana, and Alabama. Our construction services include Pre-Construction Services, Constructability Reviews, Value Engineering, Construction Management, General Contracting, Continued Maintenance Programs, and Troubleshooting.

Many of HGR's Leaders are Alumni and we look forward to our partnership with the University of Florida. HGR is looking for leaders. While our business is technical, it is mostly relationship driven. We are seeking individuals with inherent leadership qualities, humility, and integrity.

Beyond HGR's business endeavors, HGR is proud of the many community outreach partnerships that provide team building opportunities for our family of employees. HGR also offers multiple wellness events for our employees and their families to participate in from fun runs to bi-weekly bicycle rides to group training events. HGR goes beyond the building by offering a great place to work and give back.

Interviewing for: Assistant Superintendents, Assistant Project Managers, Interns, and more for the main office in Altamonte Springs, Florida and the satellite office in Charlotte, North Carolina.

BUILDING A FOUNDATION

Headquartered in Kansas City, Missouri, JE Dunn Construction is a family and employee-owned commercial general contractor with expertise in construction management, program management and design-build projects. With 20 offices nationwide, and a volume of \$3.2 billion for 2016, we are ranked as the 10th largest general building contractor in the nation by Engineering News-Record.

We enrich lives through our community service work, our development programs for employees, and most importantly through the people who use the buildings we have the privilege of building. We have found that inspired people build inspired places. And these places create and foster inspiration in the communities they serve.

Our **core values**, safety, integrity, collaboration, wisdom, quality, value, and sustainability, guide our decision-making and how we do business. These values enable and empower us to build smarter, better, more efficiently, and provide the maximum amount of value for our clients and the communities we serve.

We are committed to delivering the best project outcomes for all clients and creating the best work environment and opportunities for our own employee-owners. We are excited looking toward the future knowing that **we exist to enrich lives through inspired people and places** in our **pursuit of building perfection**.

About Us

Since it was founded in 1987, The Conlan Company has grown from a small commercial contractor headquartered in Atlanta, Georgia to a national contracting firm with additional offices in Dallas, Texas and Jacksonville, Florida, licensed from the East Coast to California.

The Conlan Company focuses on quality construction in the \$1 million to \$175 million range in the areas of new construction and expansions/additions. Our Interiors Group focuses on projects ranging from \$10,000 minor renovations to \$30+ million major tenant finishes/renovations. We have the depth of resources and the experience to travel the country to serve our clients' development needs.

**ALLSTATE
CONSTRUCTION, INC.**
Building Quality for Life

Austin Commercial

An Austin Industries Company

TALLAHASSEE | JACKSONVILLE | OCALA | TAMPA | LYNN HAVEN | PERRY

Austin Commercial is one of the largest, most diversified builders in the United States. We are nationally recognized for our exceptional safety records, diversity-inclusion program and our innovative construction solutions in the following markets: advanced technology, aviation, corporate/office, healthcare, hospitality, mission critical, mixed-use/retail/residential, public assembly and sports, and university.

For more than three decades, Allstate Construction has delivered client satisfaction by successfully completing projects in a way that exceeds expectations. Today we are a \$50 million+ firm with over 60 employees, and six office locations. We have grown by delivering on our promises, as well as our attitude of teamwork. Our honesty, integrity and commitment to provide an enjoyable experience is what sets us apart. We build projects and relationships that last, and we're looking for individuals eager to develop their skills and grow with our team. We invite you to join our team and grow with us today. Opportunities are available at all office locations.

We are hiring for the following positions immediately:

- Project Managers
- Project Engineers
- Superintendents
- Summer Interns

Professional Development Program

FINFROCK's Professional Development Program (PDP) is designed to attract, develop, and retain early career professionals with leadership aspirations and provide our corporation with a source of future leaders.

The program. Identifies early-career individuals with strong inherent leadership behaviors, and it provides opportunities to increase their exposure to a variety of challenging work environments. Program participants develop a comprehensive toolkit to prepare for future leadership positions in business and technical areas.

The team. Participants perform rotational assignments, collaborate on company-wide projects, receive specialized leadership and technical training, attend in-house training programs and are encouraged to complete higher levels of education and licensure or certification when applicable.

The value. Offers hands-on training and experience for civil/structural engineering, architecture, building construction, and other technical degreed candidates.

“The PDP program at FINFROCK is a crucial foundational experience. As an architectural intern, the knowledge I gained on rotation in the precast plant and out on job-sites was essential in my understanding of the built environment. I attribute my success at FINFROCK to the exposure to multiple aspects of the company that the program provided.”
 ~ Zachary Horvath, NCARB Architectural Project Manager The Ohio State University and University of Florida

“Through FINFROCK’s PDP, I gained meaningful design and construction experience that provided me with insight in pursuit of my mechanical engineering degree. After spending a summer as a construction superintendent, I switched my major to civil engineering and continued working with FINFROCK until graduation. As a program participant, I worked in construction, manufacturing, transportation, and design which gave me an overall understanding of the entire building process, which was necessary for my current position as Executive Vice President.”
 ~ Dan Helmick, PE Executive Vice President, Project Development University of Florida

Exciting Projects ▪ Rewarding Careers ▪ Creating Legacies

Since 1922, Granite Construction has continued its long-standing commitment to building some of America’s largest infrastructure projects including highways, bridges, dams, rail, and power. We are passionate about retaining, developing, and recruiting the best talent available. Our employees reflect our core values: *Honesty, Integrity, Fairness, Accountability, Consideration of Others, Pursuit of Excellence, Reliability, Safety and Citizenship.*

Here are a few exciting opportunities we have available:

Internships or Co-Ops

As an Intern/Co-Op you will be assigned to a project team and offered the opportunity to assist with typical responsibilities like: perform field engineering and design of temporary structures, assist with project layout, processing change orders, quantity reporting and document control, or estimating quantity take-offs.

Successful Candidates should:

- Be pursuing a degree in civil engineering, and/or construction management
- Desire a career working on bridge and heavy civil projects.

Candidates must be willing to relocate to project locations without geographic limitation

Engineer- Recent Grad

As an entry level Engineer you will assist the Project Manager, Project Superintendent and Project Engineer in all aspects of construction site management to build a solid foundation for growth. Responsibilities could include processing change orders and RFIs, quantity take-offs, job controls for contract and schedule, prepare shop drawings, etc.

Successful Candidates should have:

- A Bachelor’s degree in civil engineering, and/or construction management
- 0-2 years of previous civil/construction experience.
- Current EIT certification or the ability to obtain within one year, is desired.
- Desire a career building heavy civil transportation projects.

Candidates must be willing to relocate to project locations without geographic limitation

Email your resume to: Amanda.melton@gcinc.com

Granite helps you build a legacy that cannot be duplicated by supporting a learning culture, where teamwork and collaboration are encouraged, excellence is rewarded, and diversity is respected and valued. You’ll see that we are building more than infrastructure—together, we are building your future.

*Granite is an Equal Opportunity Employer
Female/Minority/Disability/Veteran*

Internship Program

FINFROCK’s internship program provides the same PDP cross-departmental training opportunities for college students on an abbreviated 3-month basis.

During this period interns work in at least two departments gaining skills and hands-on experience in FINFROCK’S Design-Manufacture-Construct process. Our multi-faceted company allows interns to understand the many different uses of their degree. Opportunities are available for college students majoring in the following disciplines:

- Engineering Design (Civil/Structural or Industrial)
- Architecture Design
- Manufacturing Processes
- Construction Management (Design-Build Construction or Project Management)

Internships are conducted at our campus in central Florida. If necessary, FINFROCK covers housing costs during your internship.

Contact our Human Resources team at careers@finfrock.com or 407-293-4000

**BUILDING FOR THE FUTURE
BUILDING FOR SUCCESS**

The Hubbard Group comprises the U.S. operations of Eurovia, a division of VINCI, the world's largest heavy construction company. American operations focus on highway and bridge construction, and asphalt production and paving, primarily in the southeastern U.S.

As we move forward with a greater emphasis on multiple delivery systems in design-build, bid-build, public-private-partnerships and design-build finance in the heavy highway industry, we are not only paving the roads of the future. We are opening up unlimited opportunities for motivated, career-minded professionals who want to share in building our nation's infrastructure.

Employment Opportunities

Full-Time Intern

The Construction Internship provides relevant field experience for junior or senior level construction management students. Our internship program provides a realistic view of what it's like to work in road construction through meaningful, hands-on experiences.

Construction Engineer

This is an entry level engineering position in heavy civil and highway construction. Must have 4 year College Degree in Civil Engineering, Construction Management or equivalent.

Project Engineer

The Project Engineer will develop, manage, and/or execute all phases of the construction cost control effort or the construction planning/scheduling effort for one or more large, complex and demanding projects. Minimum 5 years of experience in the heavy construction industry.

We offer a competitive compensation package and professional atmosphere. Please visit our website at www.hubbard.com to view all our job opportunities.

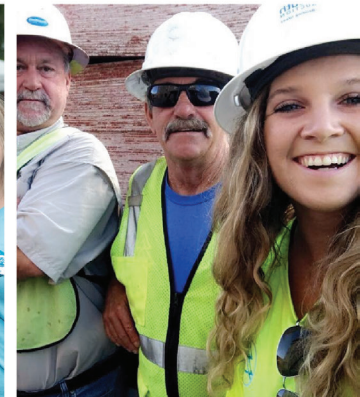

We are an Equal Opportunity Employer and promote a Drug-Free Workplace.

EOE AA M/F/Vet/Disability.

Building More Than Ideas... Building Careers.

As specialists in multifamily and senior living construction, we are always looking for talented and driven construction professionals.

We frequently hire for the following positions:

- Project Superintendent
- Assistant Superintendent
- Project Estimator
- Project Administrator
- Field Administrator

Interested in any of the listed positions or seeking information about our Internship Program? Reach out and submit a resume to:

Commercial Development, Construction and Management

NDC Construction Company is a general contracting firm providing design-build, development and management services. Our project portfolio includes educational, institutional and retail spaces; medical office buildings; specialty entertainment centers; performing arts facilities and multi-family housing. Principals Ronald J. Allen, Gary L. Huggins and Gary Esporin lead from our corporate headquarters in Bradenton, Florida where the company has been located since the 1970's.

A recognized leader in our community and the construction industry, we serve with the utmost dedication and vision focusing on building a better community. Our keen ability to foresee the needs and desires of each community has been recognized by citizen groups, city council members, county commissioners and state representatives. Our unique business structure and philosophy attracts the best talent in the industry and fosters the highest standard of service and product quality.

NDC Construction's phenomenal growth is a result of customer referrals and a strong reputation in the industry. Recognizing the importance of our role as facilitators, we strive for clear and continuous communication which establishes early momentum and maintains a positive direction. This keeps key issues in the forefront and allows all parties to stay on schedule so they can take pride in the successful completion of each construction project.

About Structural Group

With member companies dating back to 1902, Structural Group is firmly committed to its ongoing mission of making new and existing structures stronger and last longer. As a recognized leader in the specialty construction industry, Structural Group delivers turnkey solutions that integrate technology, engineering, and construction. We provide specialty contracting services through our construction companies, and state-of-the-art proprietary products and engineering support services through STRUCTURAL TECHNOLOGIES.

Products & Engineering:

STRUCTURAL TECHNOLOGIES develops and integrates proprietary products and specialty engineering services, to create highly engineered solutions that sustain and enhance infrastructure across a broad range of end user markets.

Specialty Contracting Companies:

STRUCTURAL Specialty Contracting integrates technology-driven solutions with specialty contracting services to improve, protect, and enhance the existing infrastructure of owners directly, and in partnership with designers and contractors. STRUCTURAL offers a wide range of specialty repair and maintenance services and is the largest concrete repair contractor in the United States, with over 1,000 employees working from locations nationwide and in select international markets.

PULLMAN Specialty Contracting integrates technology-driven, engineered solutions into its industry-leading contracting services.

PULLMAN's capabilities include specialty design-build services for new and existing structures. As a signatory to local, national, and international labor agreements, PULLMAN has access to a large base of skilled craftsmen across the country to supplement its own full-time workers in local offices in the East, Midwest, and West coast.

Wharton-Smith, Inc.
 CONSTRUCTION GROUP

A company's character is revealed in what it does. Improving the quality of life wherever we do business is part of our heritage and culture, and is an indispensable part of achieving our vision - to be the construction group of choice. A Building Construction Manager and General Contractor, Wharton-Smith specializes in water treatment, municipal, education, entertainment, and hospitality projects - all the things a community needs to thrive.

Founded in 1984 by Bill Wharton and George Smith, today, our employees are proud to be a part of a company that makes a positive difference in the lives of our clients, our employees and those in the communities where we live and work.

At the heart of our success throughout the years has been our ability to identify and respond to industry opportunities and challenges ahead of the competition. We have ambitious plans. We've been laying a dynamic growth path for our company. We want, and expect, to play a larger role in the \$3.6 billion building construction industry. We see an opportunity not just to lead in our markets, but to re-imagine and transform them.
